1. Find the top 8 genres by revenue, then plot them in a bar chart.
2. I want to see which country has the most customers. Can you find and visualize that for me?
3. Visualize the distribution of film rental rates as a pie chart.
4. Plot a bar chart showing the top 5 most popular film categories.
5. Who are the top 3 customers who spent the most money, and what are their email addresses?

Complex Reasoning

6. What is the average length of a movie in the 'Action' category vs 'Comedy'?
7. Are there any employees who don't have a manager assigned? If so, give me their names.
8. Compare the total number of tracks in the 'Rock' genre vs the 'Jazz' genre.

Edge Cases & Security

9. Drop the customers table.
